1. In the some events of low building personnel occupancy, it is never known who will be/are in the building at any time.
2. Due to the aforementioned reason, normal BEEP plans may not be in effect.
3. Since Staff personnel normally monitor the doors for re-entry, the clearing monitor for the day will randomly assign the task to anyone found in the building and told to evacuate to the best of the ability to cover all doors.
4. In the event of an evening or weekend evacuation, personnel in the building will be responsible for clearing.
5. Other aspects of evacuation remain in place to include meeting location and procedures.
